ABSTRACT

This 20th annual college enrollment report published by the Kentucky Council on Public Higher Education includes statistical data from all accredited independent (private) and public institutions of higher education in Kentucky. The information presented for each institution includes actual headcount enrollment figures (full-time and part-time); numbers of student credit hours by student level and course level; numbers of students enrolled in associate, baccalaureate, professional, technical/semiprofessional, and graduate programs; resident, nonresident and foreign student figures; and continuing education unit totals. FOREWORD

This 20th annual college enrollment report published by the Kentucky Council on Public Higher Education includes statistical data from all accredited independent (private) and public institutions of higher education in Kentucky.

The information presented for each institution includes actual headcount enrollment figures (full-time and part-time); numbers of student credit hours by student level and course level; numbers of students enrolled in associate, baccalaureate, professional, technical/semi-professional, and graduate programs; resident, non-resident and foreign student figures; and continuing education unit totals.

The compilation of the data was made possible through the cooperation of the reporting institutions. Figures within the report were checked and verified to insure that it will serve as an accurate source of information for those institutions, organizations, agencies and individuals who may use them.

INTRODUCTION

This report is a compilation of the enrollment figures for the fall semester of 1975 as reported by the 29 public and private colleges and universities in Kentucky which are accredited by the Southern Association of Colleges and Schools.

Enrollment Increase

A total enrollment of 123,321 students was reported. This total is 11,139 students over that reported for the fall semester of 1974, an increase of almost 10 percent.

The public institutions' enrollment increased from 96,037 to 106,568 students, and the private institutions' enrollment rose from 16,045 to 16,753.

A comparison with last year's figures shows that all of the public institutions experienced growth, and 16 of the 21 private institutions showed increases.

The University of Kentucky's Community College System experienced a substantial enrollment increase of 20 percent, going from 13,277 to 16,596 students. Northern Kentucky State College's enrollment also increased significantly from 4,885 students to 6,041 students, a 19 percent growth.

SUMMARY OF FULL-TIME EQUIVALENT ENROLLMENTS
PUBLIC INSTITUTIONS

	1973	1974	1975
Eastern Kentucky University	9,914	10,423	11,519
Kentucky State University	1,506	1,605	1,631
Morehead State University	5,342	5,531	5,846
Murray State University	5,818	5,921	6,460
Northern Kentucky State College	3,627	3,776	4,419
University of Kentucky			
Main Campus	18,324	18,183	19,344
Community Colleges	8,341	8,616	10,654
Total	26,665	26,799	29,998
University of Louisville	8,880	9,735	11,344
Western Kentucky University	9,847	10,145	10,707
TOTAL	71,599	73,935	81,924

Full-time equivalent enrollment is calculated by dividing the total undergraduate student credit hours by 16, the total graduate student credit hours by 12, then adding these two figures plus the headcount figures for first-professional students, residents, interns, post-doctorates, and doctoral independent study students.

APPENDIX A

INSTRUCTIONS AND DEFINITIONS

INSTRUCTIONS AND DEFINITIONS

General

1. Enrollment data included in this report is to be the enrollment as of the last day of the Semester Term on which regular students may register for credit. This report includes students enrolled for credit in courses which meet for an entire semester as well as students in courses which compute credits on a basis comparable to standards regularly used in the computation of semester credit hours. Enrollment in correspondence courses and workshops is not to be included.

2. Enrollment in non-credit courses should be reported as continuing education units.

3. Changes incorporated in current forms are designed to collect enrollment data by degree programs. This change should be noted by persons preparing the forms.

Definitions

Level by Student Classification

Lower Division - Students classified by the Registrar as Freshmen or Sophomores

Upper Division - Students classified by the Registrar as Juniors or Seniors

Master's Level - Students admitted to graduate program with an awarded bachelor's degree. Persons with bachelor's degree not taking graduate courses shall be counted as seniors (upper division).

Doctoral Coursework - Students admitted to graduate program with an awarded master's degree or in a doctoral program and having completed twenty-four credit hours of graduate work.

Post-Doctoral Students - Students engaged in specific form of education having already been awarded the doctoral or terminal degree in the discipline.

First-Professional Students (HEGIS) - Law, medicine, dentistry, theology, other (see HEGIS Form 2300-2.3)

Technical/Semi-Professional Students (CPHE) - Students enrolled in programs of less than four years which are designed to train graduates for employment in specific fields.

Level by Course Number

Lower Division - Student credit hours produced or enrollments in those courses assigned to the lower division of baccalaureate curricula (100 or 200 level in most instances)

Upper Division - Student credit hours produced or enrollments in those courses assigned to the upper division of baccalaureate curricula which is defined as those courses between lower division and graduate division (300 to 500 level in most instances)

Master's Level - Student credit hours produced or enrollments in those courses primarily offered as part of the master's program (e.g., 600 level courses)

Doctoral Level - Student credit hours produced or enrollments in those courses primarily offered for doctoral coursework (e.g., 700 level courses)

First-Professional - Student credit hours produced or enrollments in professional courses (e.g., 800 to 900 level courses)

Technical/Semi-Professional - Student credit hours in courses which develop specific technical and/or occupational skills.

A "full-time" student is an undergraduate student enrolled for at least twelve credit hours or a graduate student enrolled for at least nine credit hours during the fall semester, or any student enrolled for at least six credit hours during the summer term.

A "part-time" student is any student enrolled for fewer credit hours than the minimum requirement for a full-time student.

Form A - Student Credit Hour Report

This form requires that student credit hours be computed both on a student classification basis and a course level basis. The difference between the two approaches can best be explained by using illustrations.

Example 1: A sophomore in a baccalaureate program taking a 200 level English course (three hours) and a 300 level history course (three hours) would generate six lower division credit hours based on the student classification approach. This same student would produce three lower division credit hours (English) and three upper division credit hours (history) using the course level basis.

Example 2: A first-year student enrolled in a technical/semi-professional program (accounting technology) taking freshman composition (three hours) and applications of accounting (three hours) would account for six technical/semi-professional credit hours using the student classification basis. This student's enrollment in a technical/semi-professional program dictates that all his hours be classified as technical/semi-professional.

This same student would produce three lower division hours (composition) and three technical/semi-professional credit hours (applications of accounting) using the course level approach.

Example 3: Based on the student classification approach, a student admitted to graduate school who has completed twenty hours of coursework would generate six master's credit hours by taking Education 600 and Education 720. This same student would account for three master's hours and three doctoral credit hours using the course level approach.

Form A should be completed based on each individual college (business, education, law, etc.) within your institution. A student taking business administration (three hours) and human growth and development (three hours) would generate three credit hours for the College of Business and three credit hours for the College of Education.

Form B - Headcount Report

I. Total Headcount Enrollment.

This table is the same as "total unduplicated headcount enrollment" (Form A, Section III) on the old reporting form, and the same procedures and definitions should be used when completing this table. All students enrolled for credit, except correspondence and workshops, should be included under the appropriate classifications. First- and second-year technical/semi-professional students should be entered as freshmen and sophomores respectively.

The intern-resident category is reserved for interns and residents in medicine and dentistry.

II. Headcount Enrollment by Degree Levels.

This table is designed to present the same headcount enrollment as the preceding tabulation with the exception that students are classified according to declared degree programs. Freshmen and sophomores from Table I must be assigned to either the associate category (programs of less than four years) or the bachelor's category based on their presently declared degree plans. The same procedure should be followed for graduate students by assigning them to either master's, specialists, doctorate, or post-doctorate programs.

Institutions awarding associate degrees for pre-baccalaureate studies (college transfer) or liberal arts as well as technical/semi-professional preparation should report associate degree enrollment in two categories. Category 1 under associate degrees is to be used to report technical/semi-professional students, and Category 2 used for pre-baccalaureate and liberal studies students.

III. Residency Status of Students.

Using the same student classification as Table 1, students should be further classified as residents, non-residents, or foreign (residency outside the United States) according to their status for fee assessment purposes.

IV. Students Enrolled - First-Professional Programs.
